Author Index

Aboytes-Torres, R. and Buening, G.M. (Columbia, MO, U.S.A.)
Development of a recombinant *Anaplasma marginale* DNA probe 391
Aguilar, B., *see* Amorena, B. et al.
Albert, M., *see* Éliás, B. et al.
Amorena, B., Baselga, R. and Aguilar, B. (Zaragoza, Spain)
Factors influencing the degree of in vitro bacterial adhesion to ovine mammary gland epithelial cells 43
Anderson, I.E., Tan, T.W., Jones, G.E. and Herring, A.J. (Edinburgh, Great Britain)
Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci* 21
Avakian, A.P. and Kleven, S.H. (Athens, GA, U.S.A.)
The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting 155
Barbosa, A.J.A., *see* Queiroz, D.M.M. et al.
Baselga, R., *see* Amorena, B. et al.
Becht, H. (Giessen, Federal Republic of Germany)
Book review of Diagnostic virology 211
Beisel, C.E., *see* Maes, R.K. et al.
Blobel, H., *see* Schwarz, St. and Blobel, H.
Bolin, C.A., *see* Zuerner, R.L. and Bolin, C.A.
Botton, Y., *see* Kerkhofs, P. et al.
Brock, K.V. (Wooster, OH, U.S.A.) and Potgieter, L.N.D. (Knoxville, TN, U.S.A.)
Detection of bovine viral diarrhea virus in serum from cattle by dot blot hybridization assay 297
Brown, T.M., Osorio, F.A. and Rock, D.L. (Lincoln, NE, U.S.A.)
Detection of latent pseudorabies virus in swine using in situ hybridization 273
Buening, G.M., *see* Aboytes-Torres, R. and Buening, G.M.
Carvalho, A.C.T., *see* Queiroz, D.M.M. et al.
Cassimon, P., *see* Hommez, J. et al.
Castryck, F., *see* Hommez, J. et al.
Collisson, E.W., Li, J., Sneed, L.W., Peters, M.L. and Wang, L. (College Station, TX, U.S.A.)
Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA 261
Coloe, P.J., *see* Smith, S.C. et al.
Dekeyser, P., *see* Kerkhofs, P. et al.
Devriese, L.A., *see* Hommez, J. et al.
Duffield, B.J. (Townsville, Qld., Australia)
The development and evaluation of an enzyme-linked immunosorbent assay for the detection of *Mycobacterium bovis* 205
Éliás, B., Herpay, M., Albert, M. (Budapest, Hungary), Fekete, J. (Szeged, Hungary), Tuboly, S., Rafai, P. and Molnár, E. (Budapest, Hungary)
The influence of growth conditions of *Pasteurella multocida* on its ability to colonise the nasal mucosa of SPF piglets 81

Falk, D., *see* Goff, W.L. et al.
Fekete, J., *see* Éliás, B. et al.
Gannon, V.P.J. and Gyles, C.L. (Guelph, Ont., Canada)
Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with porcine edema disease 89
Gebhart, C.J., Murtaugh, M.P., Lin, G.-F. and Ward, G.E. (St. Paul, MN, U.S.A.)
Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis 367
Gerraty, N.L., *see* Smith, S.C. et al.
Gillespie, D. (Philadelphia, PA, U.S.A.)
The magic and challenge of DNA probes as diagnostic reagents 217
Gingeras, T.R. (La Jolla, CA, U.S.A.), Richman, D.D. (San Diego, CA, U.S.A.), Kwoh, D.Y. (La Jolla, CA, U.S.A.) and Guatelli, J.C. (San Diego, CA, U.S.A.)
Methodologies for in vitro nucleic acid amplification and their applications 235
Goff, W.L. (Pullman, WA, U.S.A.), Stiller, D., Roeder, R.A., Johnson, L.W., Falk, D. (Moscow, ID, U.S.A.), Gorham, J.R. and McGuire, T.C. (Pullman, WA, U.S.A.)
Comparison of a DNA probe, complement-fixation and indirect immunofluorescence tests for diagnosing *Anaplasma marginale* in suspected carrier cattle 381
Gorham, J.R., *see* Goff, W.L. et al.
Gorziglia, M., *see* Johnson, M.E. et al.; Rosen, B.I. et al.
Guatelli, J.C., *see* Gingeras, T.R. et al.
Gyles, C.G., *see* Gannon, V.P.J. and Gyles, C.L.
Hall, S.M., *see* Oberst, R.D. et al.
Harrell, F., *see* Wesley, I.V. et al.
Heisick, J., *see* Wesley, I.V. et al.
Herpay, M., *see* Éliás, B. et al.
Herring, A.J., *see* Anderson, I.E. et al.
Hommez, J. (Torhout, Belgium), Devriese, L.A. (Ghent, Belgium), Castryck, F. and Cassimon, P. (Torhout, Belgium)
Slide precipitation: a simple method to type *Actinobacillus (Haemophilus) pleuropneumoniae* 123
Iglesias, G., Molitor, T. (St. Paul, MN, U.S.A.), Reed, D. and L'Italien, J. (Minnetonka, MN, U.S.A.)
Antibodies to Aujeszky's disease virus in pigs immunized with purified virus glycoproteins 1
Ihara, T., *see* Nakamura, T. et al.
Immura, S., *see* Yukawa, M. et al.
Ishihama, A., *see* Nakamura, T. et al.
Jackwood, D.J. (Wooster, OH, U.S.A.)
Development and characterization of nucleic acid probes to infectious bursal disease viruses 253
Jackwood, D.J., *see also* Rosen, B.I. et al.
Johnson, M.E., Paul, P.S. (Ames, IA, U.S.A.), Gorziglia, M. (Bethesda, MD, U.S.A.) and Rosenbusch, R. (Ames, IA, U.S.A.)
Development of specific nucleic acid probes for the differentiation of porcine rotavirus serotypes 307
Johnson, L.W., *see* Goff, W.L. et al.
Jones, G.E., *see* Anderson, I.E. et al.; Thirkell, D. et al.
Kerkhofs, P. (Brussels, Belgium), Botton, Y., Thiange, P. (Erpent, Belgium), Dekeyser, P. and Limet, J.N. (Brussels, Belgium)
Diagnosis of bovine brucellosis by enzyme immunoassay of milk 73

Kleven, S.H., *see* Avakian, A.P. and Kleven, S.H.
Kwoh, D.Y., *see* Gingeras, T.R. et al.
L'Italien, J., *see* Iglesias, G. et al.
Lage, A.P., *see* Queiroz, D.M.M. et al.
Li, J., *see* Collisson, E.W. et al.
Limet, J.N., *see* Kerkhofs, P. et al.
Lin, G.-F., *see* Gebhart, C.J. et al.
Ling, S., *see* Smith, S.C. et al.
Lusher, M., *see* Wills, J.M. et al.
Maes, R.K., Beisel, C.E., Spatz, S.J. and Thacker, B.J. (East Lansing, MI, U.S.A.)
Polymerase chain reaction amplification of pseudorabies virus DNA from acutely and latently infected cells 281
Mair, T.S., *see* Wills, J.M. et al.
Martin, W.B. (East Lothian, Great Britain)
Book review of The Orthopoxviruses, by F. Fenner, R. Wittel and K.R. Dumbell 101
McGuire, T.C., *see* Goff, W.L. et al.
Mendes, E.N., *see* Queiroz, D.M.M. et al.
Mochizuki, K., *see* Yukawa, M. et al.
Molitor, T., *see* Iglesias, G. et al.
Molnár, E., *see* Éliás, B. et al.
Murtaugh, M.P., *see* Gebhart, C.J. et al.
Nagata, T., *see* Nakamura, T. et al.
Nakamura, T., Ihara, T., Nagata, T. (Tokyo, Japan), Ishihama, A. (Shizuoka, Japan) and Ueda, S. (Tokyo, Japan)
A complement-dependent neutralizing monoclonal antibody against glycoprotein II of pseudorabies virus 193
Oberst, R.D., Hall, S.M. and Schoneweis, D.A. (Manhattan, KS, U.S.A.)
Detection of *Eperythrozoon suis* DNA from swine blood by whole organism DNA hybridizations 127
Osorio, F.A., *see* Brown, T.M. et al.
Pastoret, P.-P. (Brussels, Belgium)
Book review of Rabies Developments in Veterinary Virology, by J.B. Campbell and K.M. Charlton (Editors) 103
Paul, P.S. (Ames, IA, U.S.A.)
Editorial 215
Paul, P.S. (Ames, IA, U.S.A.)
Applications of nucleic acid probes in veterinary infectious diseases 409
Paul, P.S., *see also* Johnson, M.E. et al.
Peters, M.L., *see* Collisson, E.W. et al.
Potgieter, L.N.D., *see* Brock, K.V. and Potgieter, L.N.D.
Queiroz, D.M.M., Rocha, G.A., Mendes, E.N., Lage, A.P., Carvalho, A.C.T. and Barbosa, A.J.A. (Belo Horizonte, Brazil)
A spiral microorganism in the stomach of pigs 199
Rafai, P., *see* Éliás, B. et al.
Reed, D., *see* Iglesias, G. et al.
Richman, D.D., *see* Gingeras, T.R. et al.
Richmond, S.J., *see* Wills, J.M. et al.
Robertson, J.A., *see* Stemke, G.W. and Robertson, J.A.
Rocha, G.A., *see* Queiroz, D.M.M. et al.
Rock, D.L., *see* Brown, T.M. et al.
Roddick, F., *see* Smith, S.C. et al.

Roeder, R.A., *see* Goff, W.L. et al.
Rosen, B.I., Saif, L.J., Jackwood, D.J. (Wooster, OH, U.S.A.) and Gorziglia, M. (Bethesda, MD, U.S.A.)
Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus 327
Rosenbusch, R., *see* Johnson, M.E. et al.
Russell, W.C., *see* Thirkell, D. et al.
Saif, L.J., *see* Rosen, B.I. et al.
Schoneweis, D.A., *see* Oberst, R.D. et al.
Schwarz, St. and Blobel, H. (Giessen, Federal Republic of Germany)
Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid from *Staphyloccoccus hyicus* 113
Sheppard, M. and Werner, W. (Parkville, Vic., Australia)
Expression of fowl adenovirus type 10 antigens in *Escherichia coli* 105
Smith, S.C., Roddick, F., Ling, S. (Melbourne, Vic., Australia), Gerraty, N.L. (Noble Park, Vic., Australia) and Coloe, P.J. (Melbourne, Vic., Australia)
Biochemical and immunochemical characterisation of strains of *Treponema hyodysenteriae* 29
Sneed, L.W., *see* Collisson, E.W. et al.
Spatz, S.J., *see* Maes, R.K. et al.
Spooner, R.K., *see* Thirkell, D. et al.
Stemke, G.W. and Robertson, J.A. (Edmonton, Alta., Canada)
The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* based upon ATP-dependent luminometry 135
Stiller, D., *see* Goff, W.L. et al.
Sutherland, A.D., *see* Wijewardana, T.G. and Sutherland, A.D.
Tan, T.W., *see* Anderson, I.E. et al.
Thacker, B.J., *see* Maes, R.K. et al.
Thiange, P., *see* Kerkhofs, P. et al.
Thirkell, D., Spooner, R.K. (St. Andrews, Great Britain), Jones, G.E. (Edinburgh, Great Britain) and Russell, W.C. (St. Andrews, Great Britain)
The humoral immune response of lambs experimentally infected with *Mycoplasma ovipneumoniae* 143
Tuboly, S., *see* Éliás, B. et al.
Ueda, S., *see* Nakamura, T. et al.
Van Maanen, C. (Lelystad, The Netherlands)
A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. I. Method and characteristics 171
Van Maanen, C. (Lelystad, The Netherlands)
A complex-trapping-blocking (CTB) ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Application 179
Wagner, D., *see* Wesley, I.V. et al.
Wang, L., *see* Collisson, E.W. et al.
Ward, G.E., *see* Gebhart, C.J. et al.
Watson, G., *see* Wills, J.M. et al.
Werner, W., *see* Sheppard, M. and Werner, W.
Wesley, I.V., Wesley, R.D. (Ames, IA, U.S.A.), Heisick, J., Harrell, F. and Wagner, D. (Minneapolis, MN, U.S.A.)
Characterization of *Listeria monocytogenes* isolates by Southern blot hybridization 341

Wesley, R.D., *see* Wesley, I.V. et al.
Wijewardana, T.G. and Sutherland, A.D. (Edinburgh, Great Britain)
Bactericidal activity in the sera of mice vacccinated with *Pasteurella multocida* type A . 55
Wills, J.M., Watson, G., Lusher, M. (Manchester, Great Britain), Mair, T.S. (Bristol, Great Britain), Wood, D. and Richmond, S.J. (Manchester, Great Britain)
Characterisation of *Chlamydia psittaci* isolated from a horse 11
Wood, D., *see* Wills, J.M. et al.
Yukawa, M., Mochizuki, K. (Fujisawa, Japan) and Imamura, S. (Tokyo, Japan)
Susceptibility of mongolian gerbils (*Meriones unguiculatus*) to leptospires and the protective effect of vaccination 63
Zuerner, R.L. and Bolin, C.A. (Ames, IA, U.S.A.)
Nucelic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms 355

Subject Index

Actinobacillus (Haemophilus) pleuropneumoniae
Slide precipitation: a simple method to type 123
Anaplasma marginale
Comparison of a DNA probe, complement-fixation and indirect immunofluorescence tests for diagnosing in suspected carrier cattle 381
Development of a recombinant DNA probe 391
ATP-dependent luminometry
The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* 135
Aujeszky's disease virus
Antibodies in pigs immunized with purified virus glycoproteins 1
Bacterial adhesion
Factors influencing the degree of in vitro bacterial adhesion to ovine mammary gland epithelial cells 43
Blot hybridization
Polymerase chain reaction amplification of pseudorabies virus DNA from acutely and latently infected cells 281
Bovine viral diarrhea virus (BVDV)
Detection in serum from cattle by dot blot hybridization assay 297
Brucella abortus
Diagnosis of bovine brucellosis by enzyme immunoassay of milk 73
Campylobacter sp.
Species-specific DNA probes isolated from pigs with proliferative enteritis 367
Cattle
Diagnosis of bovine brucellosis by enzyme immunoassay of milk 73
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. I. Method and characteristics 171
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Application 179
The development and evaluation of an enzyme-linked immunosorbent assay for the detection of *Mycobacterium bovis* 205
Detection of bovine viral diarrhea virus in serum from cattle by dot blot hybridization assay 297
Comparison of a DNA probe, complement-fixation and indirect immunofluorescence tests for diagnosing *Anaplasma marginale* in suspected carrier cattle 381
Chickens
Expression of fowl adenovirus type 10 antigens in *Escherichia coli* 105
The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting 155
Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA 261
Chlamydia psittaci
Characterisation of *Chlamydia psittaci* isolated from a horse 11

Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies ... 21
Complex-trapping-blocking (CTB) ELISA
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A,O and C. I. Method and characteristics ... 171
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Application ... 179
Dot hybridization
Development and characterization of nucleic acid probes to infectious bursal disease viruses ... 253
Detection of bovine viral diarrhea virus in serum from cattle by dot blot hybridization assay ... 297
Development of specific nucleic acid probes for the differentiation of porcine rotavirus serotypes ... 307
Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus ... 327
Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis ... 367
Development of a recombinant *Anaplasma marginale* DNA probe ... 391
Editorial ... 215
Eperythrozoon suis
Detection of *Eperythrozoon suis* DNA from swine blood by whole organism DNA hybridizations ... 127
Escherichia coli
Characteristics of the Shiga-like toxin associated with porcine edema disease ... 89
Expression of fowl adenovirus type 10 antigens ... 105
Foot-and-mouth disease virus (FMDV)
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. I. Method and characteristics ... 171
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Application ... 179
Fowl adenovirus (FAV)
Expression of fowl adenovirus type 10 antigens in *Escherichia coli* ... 105
Genetic mapping
Expression of fowl adenovirus type 10 antigens in *Escherichia coli* ... 105
Horses
Characterisation of *Chlamydia psittaci* isolated from a horse ... 11
In situ cytohybridization
Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA ... 261
In situ hybridization
Detection of latent pseudorabies virus in swine using in situ hybridization ... 273
Indirect immunofluorescence test
Comparison of a DNA probe, complement-fixation and indirect immunofluorescence tests for diagnosing *Anaplasma marginale* in suspected carrier cattle ... 381
Infectious bronchitis virus (IBV)
Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA ... 261

Infectious bursal disease virus (IBDV)
Development and characterization of nucleic acid probes to infectious bursal disease viruses 253
Leptospira interrogans
Susceptibility of mongolian gerbils to leptospires and the protective effect of vaccination 63
Nucleic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms 355
Listeria monocytogenes
Characterization of isolates by Southern blot hybridization 341
Mastitis
Factors influencing the degree of in vitro bacterial adhesion to ovine mammary gland epithelial cells 43
Mice
Bactericidal activity in the sera of mice vaccinated with *Pasteurella multocida* type A ... 55
Mongolian gerbils (*Meriones unguiculatus*)
Susceptibility of mongolian gerbils to leptospires and the protective effect of vaccination 63
Mycobacterium bovis
The development and evaluation of an enzyme-linked immunosorbent assay 205
Mycoplasma flocculare
The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* based upon ATP-dependent luminometry 135
Mycoplasma gallisepticum
The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting 155
Mycoplasma hyopneumoniae
The growth response of *Mycoplasma hyopneumoniae* and *Mycoplasma flocculare* based upon ATP-dependent luminometry 135
Mycoplasma ovipneumoniae
The humoral immune response of lambs experimentally infected 143
Mycoplasma synoviae
The humoral immune response of chickens to *Mycoplasma gallisepticum* and *Mycoplasma synoviae* studied by immunoblotting 155
Nucleic acid hybridization
Methodologies for in vitro nucleic acid amplification and their applications 235
Orthopoxviruses
The Orthopoxviruses, F. Fenner, R. Wittel and K.R. Dumbell (book review) 101
Pasteurella multocida
Bactericidal activity in the sera of mice vaccinated with *Pasteurella multocida* type A ... 55
The influence of growth conditions on its ability to colonise the nasal mucosa of SPF piglets 81
Pigs
Antibodies to Aujeszky's disease virus in pigs immunized with purified virus glycoproteins 1
Biochemical and immunochemical characterisation of strains of *Treponema hyodysenteriae* 29
The influence of growth conditions of *Pasteurella multocida* on its ability to colonise the nasal mucosa of SPF piglets 81
Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with porcine edema disease 89

Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid from *Staphylococcus hyicus* 113
Slide precipitation: a simple method to type *Actinobacillus (Haemophilus) pleuropneumoniae* 123
Detection of *Eperythrozoon suis* DNA from swine blood by whole organism DNA hybridizations 127
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Application 179
A spiral microorganism in the stomach of pigs 199
Detection of latent pseudorabies virus in swine using in situ hybridization 273
Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus 327
Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis 367
Polymerase chain reaction (PCR)
Methodologies for in vitro nucleic acid amplification and their applications 235
Polymerase chain reaction amplification of pseudorabies virus DNA from acutely and latently infected cells 281
Probes
The magic and challenge of DNA probes as diagnostic reagents 217
Development and characterization of nucleic acid probes to infectious bursal disease viruses 253
Detection of avian infectious bronchitis viral infection using in situ hybridization and recombinant DNA 261
Development of specific nucleic acid probes for the differentiation of porcine rotavirus serotypes 307
Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus 327
Characterization of *Listeria monocytogenes* isolates by Southern blot hybridization 341
Nucleic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms 355
Species-specific DNA probes for *Campylobacter* species isolated from pigs with proliferative enteritis 367
Comparison of a DNA probe, complement-fixation and indirect immunofluorescence tests for diagnosing *Anaplasma marginale* in suspected carrier cattle 381
Development of a recombinant *Anaplasma marginale* DNA probe 391
Applications of nucleic acid probes in veterinary infectious diseases 409
Pseudorabies virus (PRV)
A complement-dependent neutralizing monoclonal antibody against glycoprotein II of pseudorabies virus 193
Detection of latent pseudorabies virus in swine using in situ hybridization 273
Polymerase chain reaction amplification of pseudorabies virus DNA from acutely and latently infected cells 281
Rabies
Rabies Developments in Veterinary Virology, J.B. Campbell and K.M. Charlton (Editors) (book review) 103
Restriction endonuclease analysis (REA)
Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid from *Staphylococcus hyicus* 113
Nucelic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms 355

Rotavirus
Hybridization probes for the detection and differentiation of two serotypes of porcine rotavirus 327
Development of specific nucleic acid probes for the differentiation of porcine rotavirus serotypes 307
Sheep
Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci* 21
Factors influencing the degree of in vitro bacterial adhesion to ovine mammary gland epithelial cells 43
The humoral immune response of lambs experimentally infected with *Mycoplasma ovipneumoniae* 143
A CTB-ELISA, using monoclonal antibodies and detecting specifically antibodies directed against foot-and-mouth disease types A, O and C. II. Application 179
Shiga-like toxin
Characteristics of the Shiga-like toxin produced by *Escherichia coli* associated with porcine edema disease 89
Southern blot hybridization
Characterization of *Listeria monocytogenes* isolates by Southern blot hybridization 341
Nucleic acid probe characterizes *Leptospira interrogans* serovars by restriction fragment length polymorphisms 355
Spiral microorganism
A spiral microorganism in the stomach of pigs 199
Staphylococcus hyicus
Isolation and restriction endonuclease analysis of a tetracycline resistance plasmid 113
Transcription-based amplification system (TAS)
Methodologies for in vitro nucleic acid amplification and their applications 235
Treponema hyodysenteriae
Biochemical and immunochemical characterisation of strains of *Treponema hyodysenteriae* 29
Vaccine
Efficacy against ovine enzootic abortion of an experimental vaccine containing purified elementary bodies of *Chlamydia psittaci* 21
Bactericidal activity in the sera of mice vaccinated with *Pasteurella multocida* type A ... 55
Virology
Diagnostic Virology, Z. Dinter (Editor) (book review) 211
Whole organism hybridizations
Detection of *Eperythrozoon suis* DNA from swine blood by whole organism DNA hybridizations 127
